

District-Wide Assessment and Reporting to Public

All students are expected to participate in district-wide assessments. Students with disabilities may participate without modifications and accommodations, with modifications or accommodations, or through the use of an alternate assessment. The IEP team will make the determination of how the student will participate in district-wide assessment, and it will be noted on a student's IEP.

The AEA and LEAs shall ensure that the participation and performance results of eligible individuals in district-wide assessments are reported to the public in accordance with the state's general accreditation standards.
