

Student Wellness Policy

While maintaining learning through the support and promotion of good nutrition and physical activities, Central Rivers AEA will contribute to the basic health status of students. Improved health optimizes student performance potential.

Central Rivers AEA provides a comprehensive learning environment for developing and practicing life-long wellness behaviors. The entire learning environment, not just the classroom, shall be aligned with the agency goals to positively influence a student's understanding, beliefs and habits as they relate to good nutrition and regular physical activity.

All foods available at school programs and at school sponsored activities during the instructional day shall meet or exceed the school district nutrition standards and be in compliance with state and federal law. Food should be served with consideration toward nutritional integrity, variety of appeal, taste, safety, and packaging to ensure high-quality meals.

A wellness committee in each instructional facility will conduct periodic assessments to determine the scope of policy compliance and the extent of progress made toward the student wellness goals. As part of this assessment, the committee will review current trends in nutrition and physical policies and practices, and the provisions that support an environment of healthy eating and physical activity.

District Targeted Wellness Goals:

- A. Nutrition Education and Promotion: Emphasizes caloric balance between food intake and physical activity.
- B. Physical Activity: Students in grades K-5 will have thirty (30) minutes of physical activity per day. This requirement can be met through a combination of physical education, recess, classroom, and other activities. Students in grades 6-12 shall have at least one hundred twenty (120) minutes of physical activity per week. This goal can be met with a combination of PE, school, and non-school sponsored athletics, and other activities.
- C. Other School-based Activities that Promote Student Wellness: Classroom health education will compliment physical education by reinforcing the knowledge and self-management skills needed to maintain a physically active lifestyle and to reduce time spent on sedentary activities.
- D. Nutrition Guidelines for all Foods Available during the School Day: The Agency nutrition standards shall be in compliance with state and federal law.*

*For the purpose of this policy, the school day is defined as first bell to last bell, Monday through Friday, when students are regularly scheduled for classes.
